PROFILE

I am a software developer who is deeply passionate about what I do. I am always eager to learn and explore things beyond my current skillsets. Solving problems brings me immense joy, and I equally enjoy creating new challenges to overcome.

EMPLOYMENT HISTORY

Oct, 20 2022

Uyo, Nigeria

Protis Studios — Engineering Lead

- As the Engineering Lead at Protis Studios, I have been instrumental in shaping the vision and leading the technical direction of the organization. My responsibilities span various facets of our operations: Strategic Vision, Technical Leadership, Product Development, Team Building and Management. In my role, I'm committed to driving the company's technical excellence, fostering innovation, and delivering exceptional technology solutions that exceed client expectations and position us as a leader in the industry

Jan, 15 2023

Delaware, USA

Maalexi — Frontend Engineer (Contract)

- My work involved utilizing a variety of frontend technologies such as ReactJs, Nextjs, Typescript, Tailwind CSS and various frontend tools to create visually appealing and functional interfaces.I collaborated closely with cross-functional teams including designers, backend developers, and project managers to ensure seamless integration of frontend components with the overall application architecture

Nov, 05 2021.

Rivers, Nigeria

Lambabros Deals — Frontend Engineer (Full Time)

- I had the opportunity to collaborate closely with a team to create an efficient web application (React/Bootstrap) and mobile app (React Native).I conducted thorough testing, debugging, and optimization to guarantee that the mobile application could handle the growing user base and demands.Active participation in the technical development process of the entire platform. This involved writing code, implementing features, and integrating functionalities that would streamline the app's demands.

Dec, 2022 - Mar 2023

Kano, Nigeria

Plutus Tech Solutions - Frontend Engineer (Contract)

- My primary focus was on creating an intuitive and user-friendly interface for the company's website, ensuring a seamless experience for customers as the sole frontend dev. Throughout the project, I encountered various challenges, from browser compatibility issues to optimizing performance for different devices. I had to use problem-solving skills to identify these issues and iterate on solutions to provide users with a smooth and consistent experience.
